Dr. David South  
Senior Engineer  
Toxics Cleanup Program  
Washington State Department of Ecology  
3190 160<sup>th</sup> Avenue SE  
Bellevue, WA 98008-5452

**RE: Everett Smelter Site – Addendum 2005-1  
Ecology Enforcement Order #02TCPNR-4059**

Dear Dave:

Please find enclosed two copies of Addendum 2005-1 for remedial activities scheduled at the Everett Smelter Site this year. Two CD's with the electronic files are also enclosed. This addendum amends the 2004 scope of work for the *Everett Smelter Site – Fenced Area Cleanup* to incorporate the remediation of two additional Everett Housing Authority parcels and to provide arsenic concentration thresholds of 20 ppm for a large portion of the site.

The Addendum 2005-1 submittal includes the following components amended to the existing contract documents:

- Construction Specifications
- Construction Drawing Plan Set
- Sampling and Analysis Plan (dated April 2005)
- Transportation Plan (dated April 11, 2005)

Following your review and comments, we will incorporate revisions as necessary and produce final documents with the appropriate engineer's certification. If you have any questions, please call me at (253) 752-1470, ext. 240.

Sincerely,

A handwritten signature in black ink, appearing to read "Sue O'Neill". The signature is fluid and cursive, with a large loop at the beginning and a long, sweeping tail.

Sue O'Neill  
Manager, Environmental Principal
